SUBJECT:           Unclassified Version of NSDD-97

The general goals of the Administration's national security telecommunications policy must be disseminated and understood by all relevant federal agencies if effective planning is to occur. To facilitate this, the President has approved a declassified version of NSDD-97, National Security Telecommunications Policy. Agencies are encouraged to distribute this directive to their telecommunication planning offices.

Although the document is unclassified, it retains its "For Official Use Only" caveat.
